

# WORLD DAY OF IMMUNOLOGY

## Vaccination: Not Just a Shot in the Dark

### Dr Nikki Turner

Director of the Immunisation Advisory Centre (IMAC)  
and Senior Lecturer in the Division of General Practice and Primary  
Health Care, University of Auckland

Vaccination is an incredibly successful and valuable public health intervention. But some established and emerging diseases require new approaches in vaccine design and community uptake. Hear about the contribution of New Zealand's medical researchers and health workers.

Thursday 28 April 2011  
4.30pm refreshments  
5.00pm lecture begins  
Hutton Lecture Theatre  
Otago Museum
