

Clinical Immunology, Autoimmunity & Tolerance, Systems Immunology

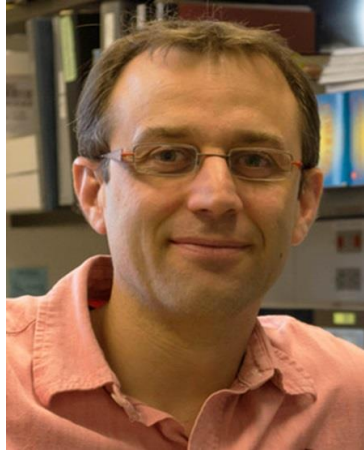

Special Interest Group Workshop

Monday 25 November, Sydney Convention Centre

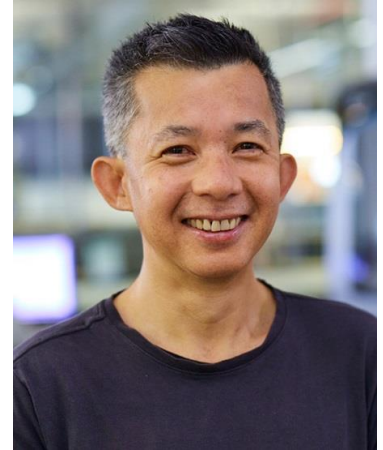

Invited speakers

Carola Vinuesa

Bertrand Boisson

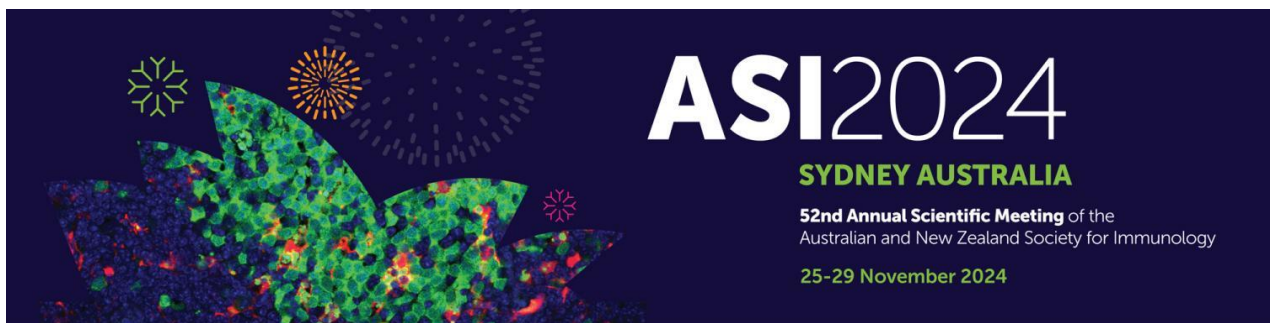

Tri Phan

Bonus: Single-cell analysis workshop (Python) with Kelvin Tuong (BYO laptop!)

This workshop will bring together researchers interested in clinical immunology, 'omics datasets and a variety of conditions including autoimmunity, allergy, transplantation, inborn errors in immunity and inflammatory diseases. The workshop will be an interactive opportunity for early-career researchers and postgraduate students to engage with our invited speakers prior to the main ASI meeting.

Oral presentations selected from abstracts submitted to the ASI 2024 meeting
