

CD1 blockers and T cell immunoregulation in psoriasis

Dr. Branch Moody, M.D.

Professor of Medicine
Brigham and Women's Hospital /
Harvard University
Boston / United States of America

Dr. Branch Moody is a Professor of Medicine at the Harvard Division of Medical Sciences in the United States. The Moody laboratory seeks to answer questions regarding human T cell responses in autoimmunity and infectious disease. With an emphasis on tool building, Professor Moody's research uses whole cell screens to discover molecules and assign gene functions, thereby establishing previously unknown biological pathways that contribute to major diseases like tuberculosis and enteric fever.

1pm – 1.30pm: lunch, TRI Atrium
1.30pm – 2pm: seminar, TRI Auditorium

13th May 2025
TRI, 37 Kent Street, Woolloongbba, 4102

Hosted by Ranjeny Thomas
